

ROUILLARD —LIBRA

LIBRA embodies functional elegance with plastic shells in trendy shades — white, black and sand, perfectly matched to the different bases that share the same colors. Minimalist, refined and easy to clean, this stackable chair with a slightly curved back combines delicacy and professionalism, harmoniously following the shape of the back. Available with various bases and in two stool heights, it adapts to all spaces, from classrooms to cafeterias. Choose the upholstered option for a chic touch, perfect for conference rooms. LIBRA pushes the limits of functional design, marking the perfect union between aesthetics and practicality.
