The Downtown Collection offers a casual professional work environment adapted to today's new ways of working and the associated technology. Whether your team meets standing up or sitting down, in large or small groups, for a minute or an hour, Downtown provides an atmosphere of freedom and well-being.

Depending on the context, collaborative work is performed using lounge chairs, task chairs or stools. Tables of various heights (17.5", 24", 29" and 40") adapted to different types of seating are required. The Downtown Collection offers a wide range of seating and table choices that allow multiple configurations.

The linear seating offers both comfort for a moment of relaxation and ease for working with electronic devices. Seating is available in several sizes, and with many choices of backrests. Electrical outlets facilitate the use of electronic devices over a long period. Adapted to new ways of working, focusing primarily on advanced communication technology, this collection has tables that enable the installation of a monitor in addition to high performance power and communication modules. These tables are available in 3 heights allowing for the design of casual work environments.

Several complements such as privacy screens, mobile panels, storage and a variety of accessories optimize the efficiency of Downtown work environments.

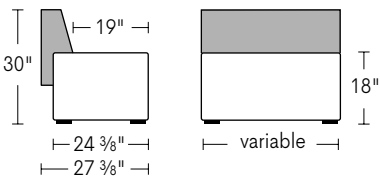

General information

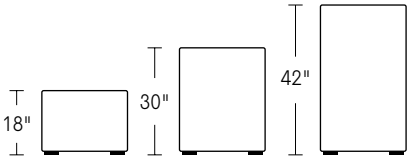

Seating

Seating consists of a plywood structure covered in high density polyurethane foam and a layer of water-repellent fiber. The legs are only 1" high with adjustable levelers, giving the impression that the seat is floating. Benches are delivered assembled, individually wrapped.

Overall seat dimensions:

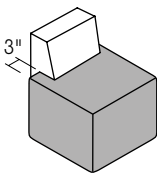

Seating is available in 3 seat heights:

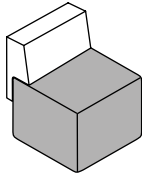

18" height:

- Lengths: 24 3/8" - 30 3/8" - 48 3/8" - 60 3/8"
- Depth: 24 3/8" (backless)
- Available with or without backrest
- Backrest: offset by 3" or flush with the seat
- Optional multi-outlet for seating 18" H., [see p.15](#).

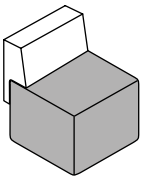

Backrest offset 3" from each side of the seat

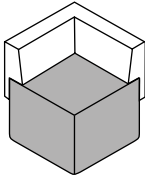

Backrest flush with seat

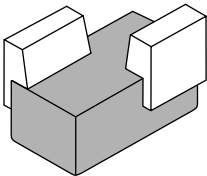

Backrest models:

Right

Corner

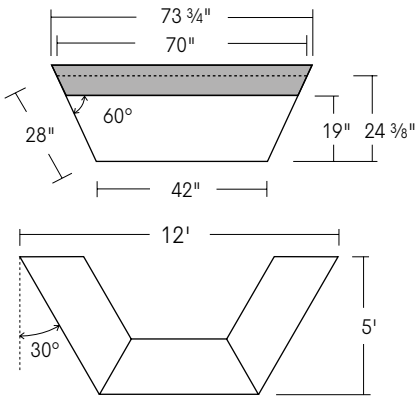

Alternating

18" height (continued)

Seating in trapezoid and round shapes are also available at a height of 18".

Trapezoid seating is available with a backrest flush with the side of the seat or without backrest. The seat's 60° angle allows for configurations adapted to the collection's tables. An optional multi-outlet is available, [see p.15](#).

Dimensions:

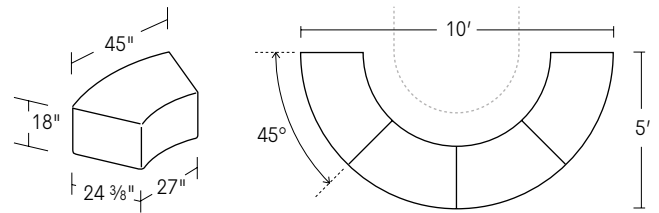

Seating (cont'd)

Round and half-moon seats are available always without backrest. Refer to the price list for available sizes.

Curved benches are also offered with an 18" height. Different models available: - curved bench, 45°, no backrest - exterior or interior curved bench, 45° backrest flush with side of seat.

Multi-outlet **M7** option available, [see p.15](#).

4 exterior curved benches, no backrest

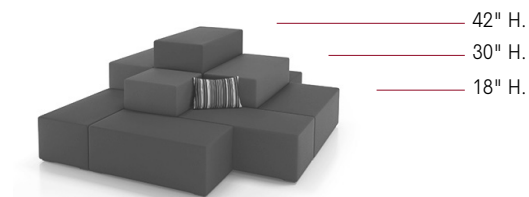

Height 30" H.

- Lengths: 24 3/8" - 30 3/8" - 48 3/8" - 60 3/8"
- Depth: 24 3/8"
- Without backrest

Height 42" H.

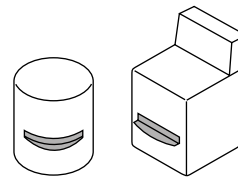

- Lengths: 30 3/8" - 48 3/8"
- Depth: 24 3/8"
- Without backrest

Ottomans 30" H. and 42" H. allow for multi-level "bleacher" configurations.

Stools 30" H.

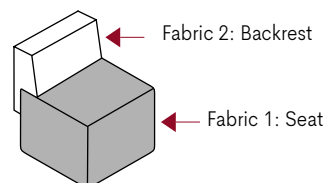

- Square (20 1/4" x 20 1/4") without backrest
- Square (20 1/4" x 20 1/4") with backrest
- Round (20" diameter)
- Metal footrest included

Fabric Choices

Seating with backrests can be ordered in 2 fabrics:

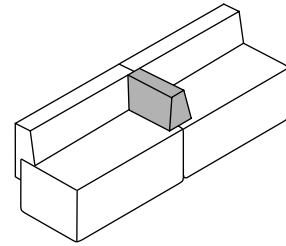

Fabric 1 = seat; Fabric 2 = backrest. The price for the seat is determined by the highest of the two fabric grades. For the complete selection of fabrics available, refer to the current Artopex seating fabric cards.

Seating (cont'd)

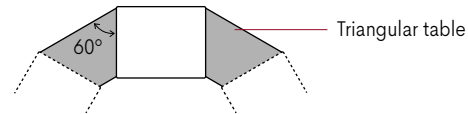

Armrest

An armrest, sold separately, can be installed between two seats with backrests, flush with the sides of the seat. A metal bracket attaches the armrest to one of the benches. Once installed, the armrest is the same height as the backrest and leaves a 3" space from the front of the seat.

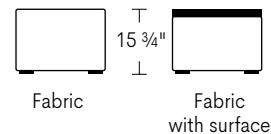

Tables with Upholstered Base

Tables complete seating configurations by unifying the space with the same fabric. The table consists of a hardwood structure covered in polyurethane foam and a fabric cover. The table has the same legs as the benches, 1" high.

Tables are available in various shapes: rectangular, round, half-moon, triangular, and in several dimensions. The triangular table has an angle of 60 degrees for creating curved layouts.

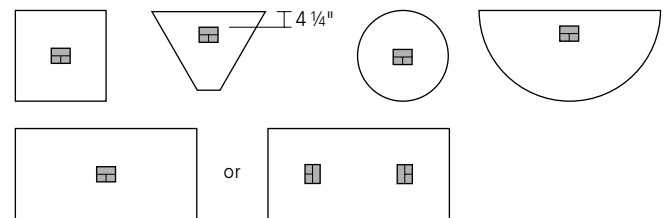

Two models of tables are available: all fabric or fabric with a 2" thick laminate surface. In both cases, the total height of the table is 15¾" H.

Multi-outlet (M6) for an upholstered table

An optional multi-outlet is available on the upholstered table with or without a 2" top. One multi-outlet is installed at the center. For rectangular tables 48" and more, it is possible to add 2 modules (see drawing).

Positions of the multi-outlet:

See p.21 for a detailed description of the multi-outlet (M6).

Multi-Outlet (M7) for Seating

A multi-outlet is available as an option on rectangular and trapezoid seating (18" H.). Only one multi-outlet can be installed on a seat.

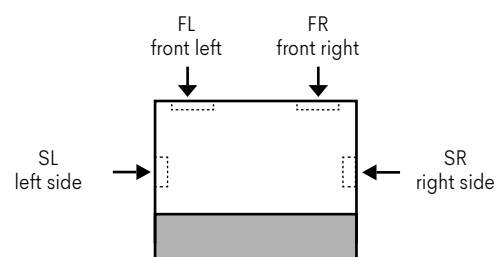

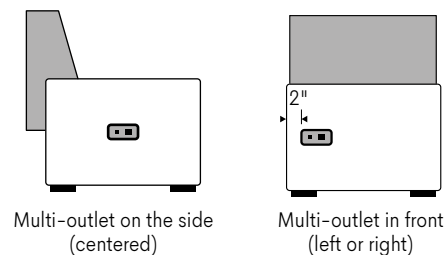

Four positions are available: front left (FL), front right (FR), left side (SL) or right side (SR).

M7 multi-outlet

- Dimensions of the multi-outlet: 5" x 2 ½"
- 1 electrical outlet and 2 USB ports for charging
- Power cord: 9 feet
- ETL Certified
- Painted aluminum finish

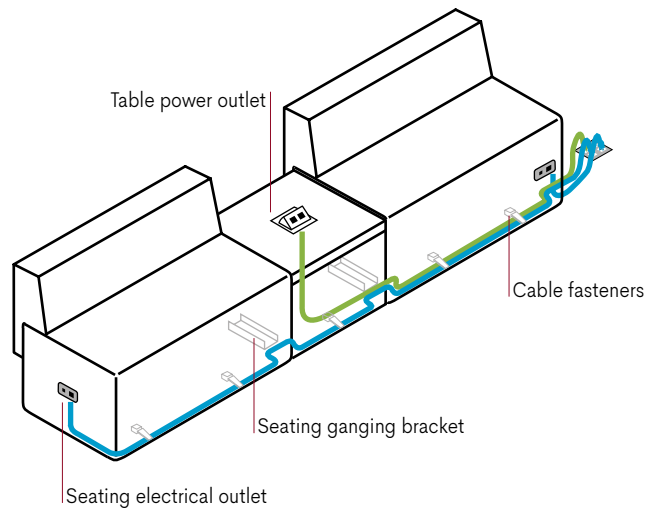

Multi-outlet on the side:

Seating (cont'd)

Cable routing under the benches:

Mediacom Tables

The Mediacom table is specifically designed for the installation of a monitor and management of the most complex cabling. It consists of a surface, a leg, and a technical panel with a metal contour and laminate facades.

Surface characteristics:

- Thicknesses and finishes: 1" thermally fused laminate (**L1**),
- 1" high pressure laminate (**S1**)
- Width: 48"
- Lengths: 60" and 72" (+2 5/8" for the technical panel)
- Heights: 24", 29" and 40" H.
- Shapes: rectangular, "D" or tapered

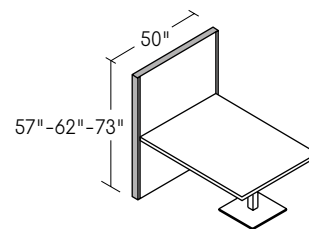

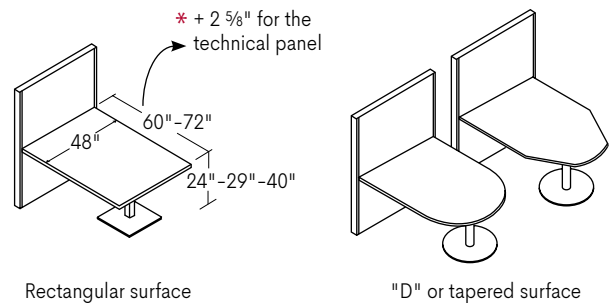

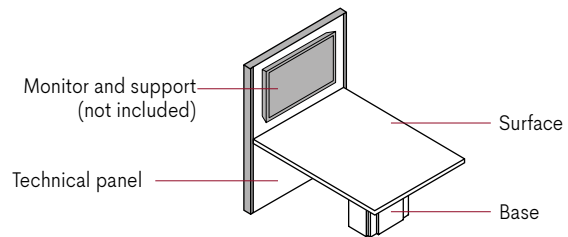

Choice of surface support:

- Metal leg with round or square base plate
- Rectangular or triangular architectural base

The technical panel

The secured front panel is used to install a monitor. At the opposite, the back panel is removable and allows an easy access to the cables. A metal frame 2 5/8" wide holds the panels together.

- Width: 50"
- Heights: 57", 62", 73" H.
- Maximum monitor size: 55" diagonal
- Metal frame finishes: Black, Charcoal, Silver or Polar White

Finishing Profile

Finishing profiles in painted steel, sold separately, are designed to conceal electrical cables and monitor support brackets. They are installed with screws on to the technical panel of a Mediacom table and positioned at the desired distance from either side of the monitor. The profile has a 120° opening and a height of 32" that fits all sizes of Mediacom tables. They are available in 4 colors: Black, Charcoal, Silver or Polar White.

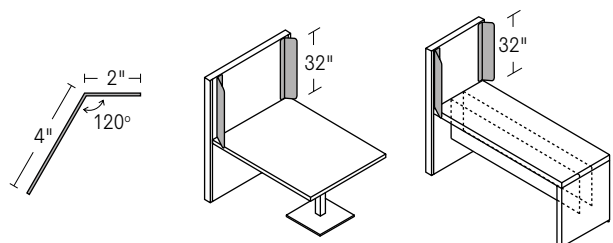

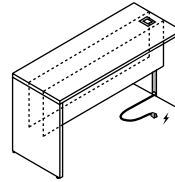

Table and Technology

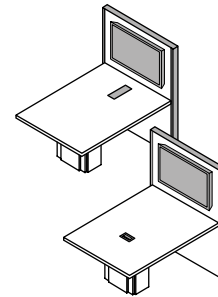

The Downtown Collection offers a range of solutions for electricity and cable management. The recessed multi-outlet option is available on most tables. The model and position varies depending on the surface and the type of base. Please refer to the information in the price list.

Mediacom table with architectural base

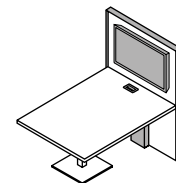

The **M4** multi-outlet is positioned near the technical panel and cables are routed inside the panel through a grommet.

The Downtown Connection system **M8** is installed directly inside the base, and the cable connection access module is positioned above it.

MEDIACOM Table with metal leg

The Downtown Connection system **M8** is screwed directly on to the technical panel and is installed inside a vertical cable conduit with a removable "door" for access to cables. The connection access module is positioned on the surface above the power module.

***M4** multi-outlet not available.

Electrical Outlets

Multi-outlet for Downtown Collection tables

The multi-outlets below cannot be ordered separately. They must be specified when ordering the table. One outlet per surface can be specified.

M2 Multi-Outlet

- 4 ¼" diameter on the surface.
- Multi-outlet will exceed 4" under the 1" surface.
- Two power outlets and two communication outlets (RJ45, cable not included).
- Power cord: 6'.
- Electrical component(s) certified according to electrical standards applicable in the United States and Canada.
- Black finish.

M3 Multi-outlet

- 5 ½" x 11 ½" on the surface.
- Multi-outlet will exceed 3" under the 1" surface.
- Three electric outlets.
- Power cord: 9'.
- Three punch outs for communication connections.
- Electrical component(s) certified according to electrical standards applicable in the United States and Canada.
- Anodized aluminum finish.

M4 Multi-outlet

- The multi-outlet opens and closes with a switch.
- Dimensions: 4 5/16" x 16" on the surface.
- Three electric outlets (power cord: 9').
- One communication outlet (RJ45).
- One phone jack (RJ11).
- Two audio jacks 3.5.
- One VGA outlet.
- One HDMI outlet.
- One USB outlet.
- Cables included for all outlets.
- Electrical component(s) certified according to electrical standards applicable in the United States and Canada.
- Anodized aluminum finish.
- Sensor prevents rotation when the electrical outlets and VGA are in use.

ATTENTION:

The configuration of the M4 multi-outlet cannot be modified.

Electrical Outlets (cont'd)

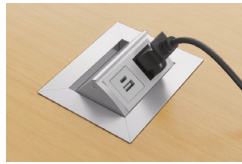

M5 Multi-outlet

- 4" x 5" on the surface.
- Multi-outlet will exceed 1 ½" under the 1" surface.
- One power outlet and one punch out for communication outlets.
- Touch retractable.
- Power cord: 9'.
- Electrical component(s) certified according to electrical standards applicable in the United States and Canada.
- Anodized aluminum finish.

M6 Multi-outlet

- 4" x 5" on the surface.
- Multi-outlet will exceed 1 ½" under the 1" surface.
- One power outlet.
- 1 USB-A 18W, 5V, 1.5 amp. for recharging.
- 1 USB-C 25W, 20V, 1.25 amp. for recharging.
- Touch retractable.
- Power cord: 10'.
- Electrical component(s) certified according to electrical standards applicable in the United States and Canada.
- Anodized aluminum finish.

Downtown Connection - M8

Downtown Connection is an advanced technology electronic module that can be specified on some Mediacom tables and the mobile panel. This communication tool's quick and easy connection allows multiple users (2-4) to share, in turn, their computer screen on a common monitor.

Simply connect a data sharing cable to a laptop or tablet and press the control button on the same cable for the screen to appear on the monitor.

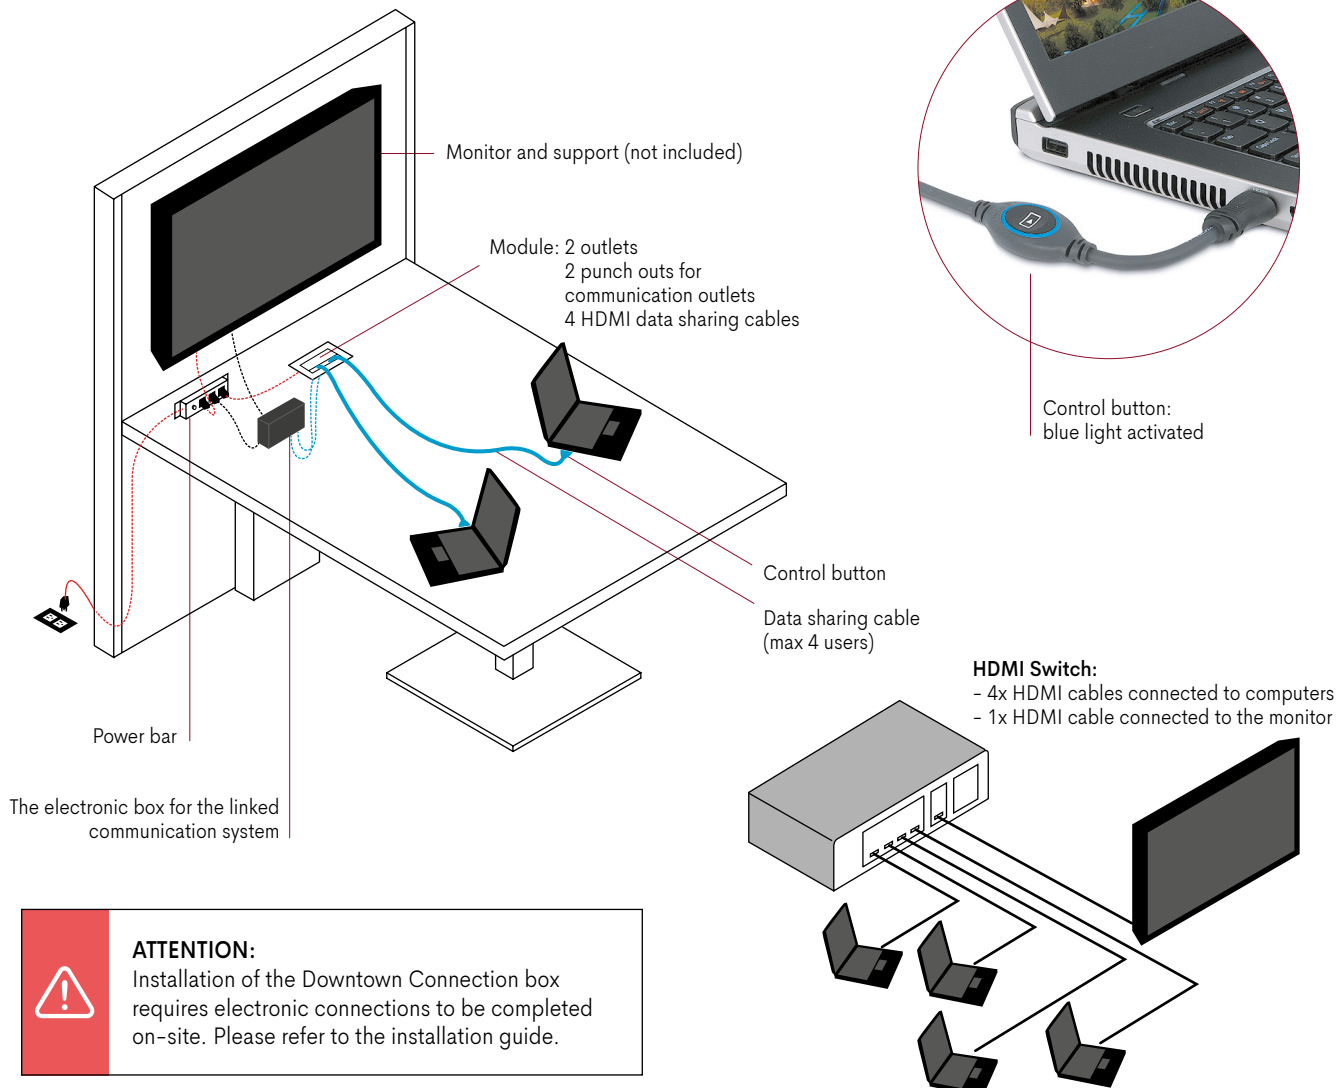

Components included with Downtown Connection:

- 1 x electrical box, HDMI cable with four inputs
- 4 x HDMI data sharing cables (6' long)
- 1 x HDMI cable for monitor (12' long)
- 1 x cable connection access module (recessed in the surface)
- 1 x power bar (EPUP - power cord: 9')

Installing Downtown Connection

connected to a monitor by an HDMI cable and is powered by an electrical cable connected to a conventional power outlet.

On top of the surface, a recessed cable access module provides access to 2 outlets, 2 punch outs for communication outlets and 4 HDMI data sharing cables directly connected to the selector housing. The 4 data sharing cables are 6' long (approximately 56" can be brought to the surface) and have a control button that provides access to the monitor and lights up when enabled. When using the system, the data cables from the module are connected to the laptops and tablets. Once the work session has ended, cables slide easily inside the module where the excess cable is stored inside a cable conduit or an architectural base.

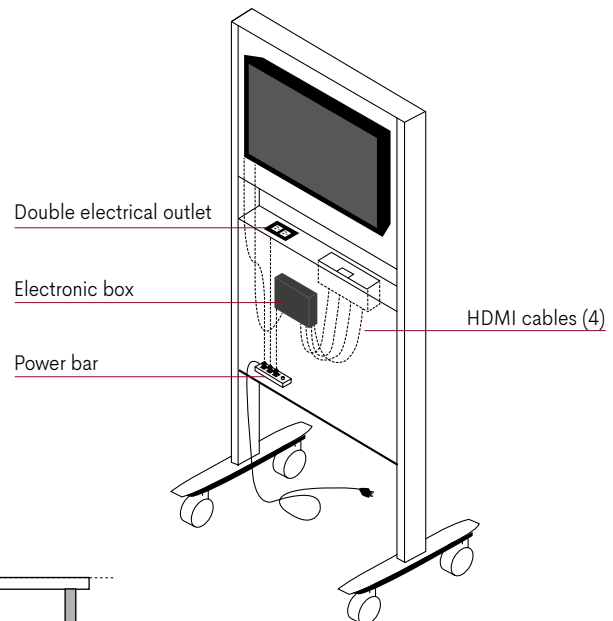

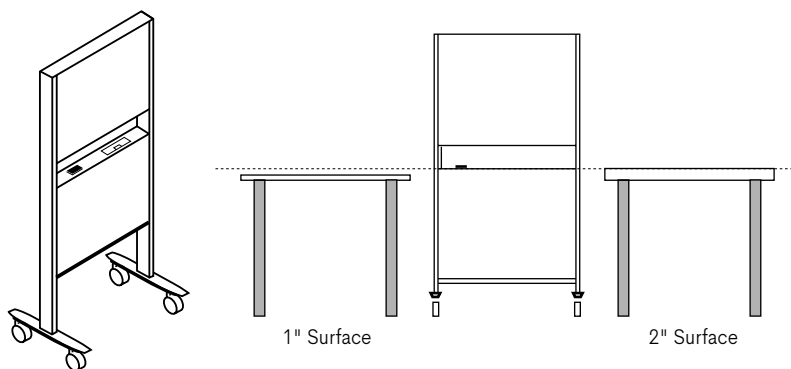

Mobile Panel with Downtown Connection System

The Downtown Connection system is also available on the mobile panel, allowing it to be used with different Downtown Collection tables.

It consists of a metal structure (3" wide) on legs with casters. The panel is 38" wide.

The panel is available in 3 heights perfectly matched with the 3 main table heights of the series: 24" H., 29" H. and 40" H. Paired with a table with a 1" Surface thick, the lower section of the panel reaches 1" above the surface. However, paired with a table 2" Surface thick, the housing is flush with the surface.

This panel has an upper and lower section. A 5" space between the two provides access to the linked communication system and 2 electrical outlets.

The interior of this panel is used to route the system's cables. When the linked communication system is not in use, the retracted cables remain concealed inside the mobile panel. Only one electrical connection cable is accessible at the base of the panel.

Upper section

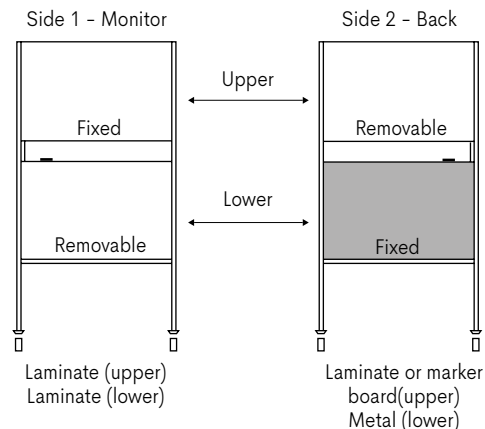

Side 1 of the panel is secured to the metal frame and is used for mounting a monitor. It is available in laminate only.

Side 2 of the panel is removable to facilitate cable management. It is available in laminate or high-gloss white marker board.

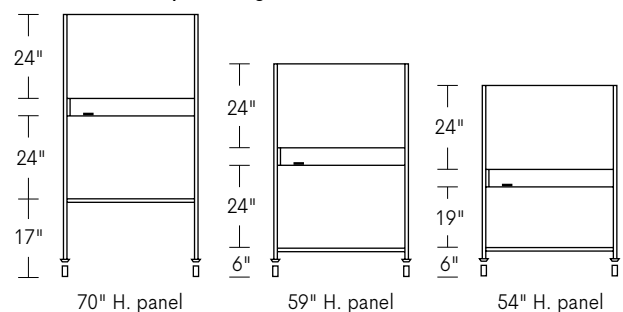

Lower section

The lower section houses Downtown Connection. Side 1 is removable (laminate), while the Side 2 is fixed (in metal).

The mobile panel with the Downtown Connection system fits a monitor with the maximum width of 40" (diagonal). It includes the linked communication system, 2 power outlets and 1 power bar.

Dimensions of the 3 panel heights

Mobile Panels

3 models of mobile panels are available:

- Marker board
- Communication panel
- Panel with the Downtown Connection system
(see previous page)

They are composed of a metal structure (3" wide) on legs with casters and are 38" wide.

Mobile Panel 70" H.

Both sides of the panel have a high-gloss white finish (SBL) and are fixed.

Side 1 has a recessed accessory bar, while Side 2 is full height.

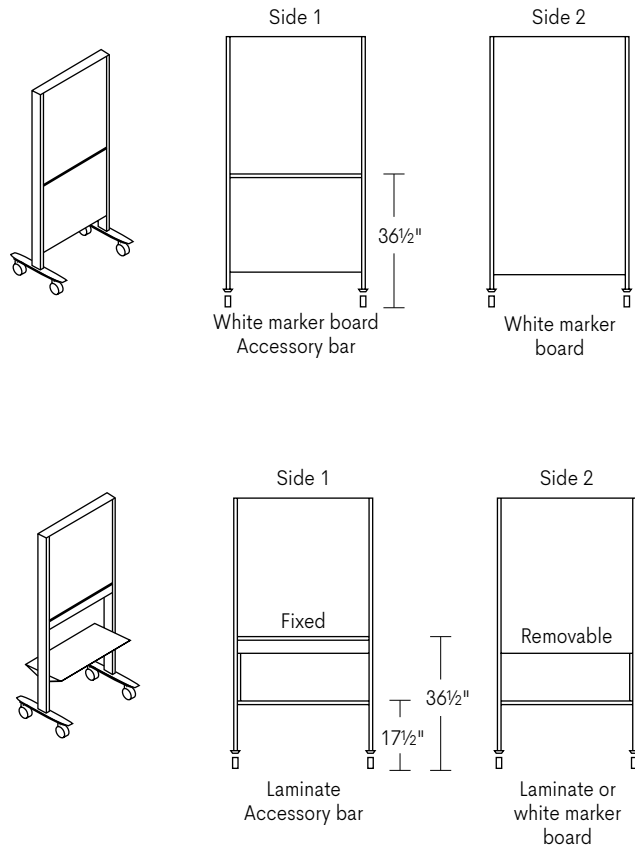

Communication Panel 70" H.

The communication panel is designed for the installation of a monitor with a maximum width of 40" (diagonal).

Side 1 of the panel is secured to the metal frame, and is for installing a monitor. It is available in laminate only and comes with a recessed accessory bar for hanging accessories and shelves, sold separately.

Side 2 of the panel is removable to facilitate cable management. It is available in laminate or high-gloss white marker board (SBL).

The communication panel has a metal shelf for a DVD player or other electronic accessories. A metal cable conduit is installed between the metal shelf and laminate panel to conceal cables.

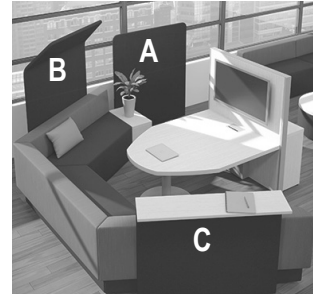

Privacy Screens

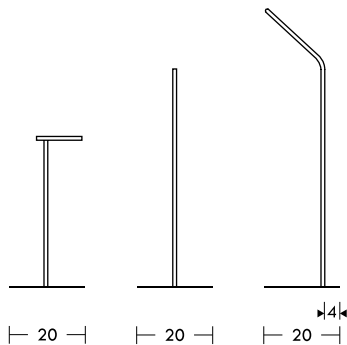

Privacy screens are usually placed behind seating to create privacy for users of the space. The screen is made of a 1" tubular steel frame covered with a polyester 3D mesh fabric. For color choices available, [see p.26](#).

The screen is available in 3 models: vertical (A), angled-top (B) or with a shelf 1" thick (C).

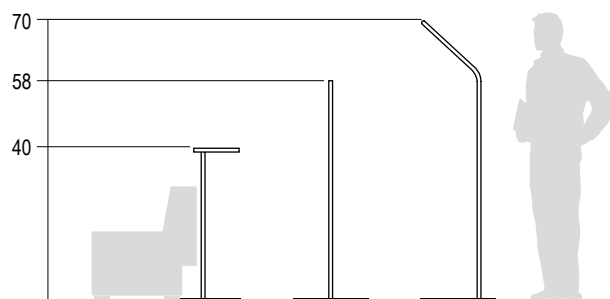

In all cases, the screen is self-supporting and rests on two flat tapered painted metal feet. Feet of the vertical screen and screen with a shelf are centered ensuring stability. The center of gravity of the angled-top screen requires an offset foot, allowing the panel to be placed 4" from a wall.

Dimensions and position of the feet (side view)

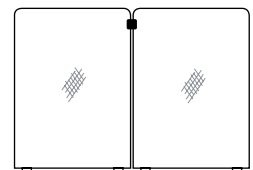

Privacy screen heights

Junction bracket for privacy screens

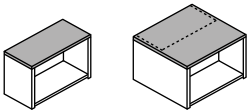

The junction bracket serves to join 2 privacy screens, vertical or angled-top. It is made of 2 pieces of metal, available in 4 colors and is assembled during installation. Only one bracket is necessary to join 2 screens and to keep them aligned.

Junction bracket.
Installed at the top of
the screen.

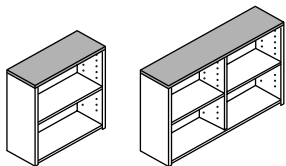

Storage

Storage units complete the Downtown Collection: storage 16 ¾" H. serves as occasional tables and storage 29" H. serves as bookcases. These storage units consist of a case made of laminate panels 1" thick and the top can be specified with a thickness of 1" (TFL: code **L1**; HPL: code **S1**). The contour of the panels (edge band) is made of PVC 2.5 mm thick in a color matched to the surface finish.

Storage 16¾" H.
• Open (12" deep)
• Open and shared (24" deep)

Storage 29" H.
• bookcase style

Complements

Ganging Bracket

The ganging bracket is used to join two seats together for large configurations. It is made of two pieces of metal, black finish, one male and one female, and is screwed to the seat during installation.

ATTENTION:
Exception: 2 upholstered triangular tables cannot be joined together using a ganging bracket.

Cable Fasteners

The single cable fasteners can be screwed under the seats to hold electrical cables routed under the seats.

Downtown component colors

These are the codes to be used in the specific fields of the price list with reference to choice of colors.
