B. BID SOLICITATION

6B.1 Bid Solicitation General Information

6B.1.1 Category and Sub-Categories

Category – Office Seating

Sub-Categories are defined as follows:

- Sub-category 1 – Rotary chairs and stools
- Sub-category 2 – Side chairs

6B.1.2 The Tiers are as follows

Tier 1: An estimated value up to \$24,999.99.

Tier 2: An estimated value of \$25,000.00 or more up to \$400,000.00.

Tier 3: An estimated value of \$400,000.01 or higher.

6B.2 Solicitation Documents

6B.2.1 Standard Procurement Templates

Canada will use the following solicitation templates based on the estimated dollar value and complexity of the requirement:

- Simple, for low dollar value requirements;
- Medium Complexity (MC) for medium complexity requirements;
- Request for Standing Offers (RFSO).

A copy of the standard procurement template(s) can be requested by suppliers from the Supply Arrangement Authority or the Contracting Authority, as applicable.

Note: References to the RFSO, MC and Simple templates in PWGSC Requests for Supply Arrangements are provided as examples only. The latest versions of the template and terms and conditions will be used at time of solicitation.

6B.2.2 SA Templates

PSPC will provide example templates for identified users that will be aligned with the Standard Procurement Templates. These examples will provide sample common clauses used in the furniture commodity as well as pricing table templates. These examples will be hosted on the furniture website.

6B.3 Procurement Strategies

6B.3.1 General or PSIB

The IU must identify if they are procuring under the General stream or Procurement Strategy for Indigenous Business (PSIB) stream, they cannot be combined. PSIB suppliers can submit bids/quotes/offers on General Stream Procurements.

6B.3.2 Sub-Category or All Inclusive Procurement

The IU must identify if the requirement will be handled as a Sub-Category Procurement or an All Inclusive Procurement. The intent of providing both options is to provide the Identified Users the ability to select the most appropriate strategy to meet their requirement.

a. Sub-Category Procurement (CP): When the IU chooses to issue a solicitation and award a contract/ SO per sub-category. The IU may further subdivide the subcategory by space to meet their operational requirements. Space is defined as a location available for a particular purpose such as a meeting room space or a collaborative space.

b. All Inclusive Procurement (AIP): When the IU chooses to issue a single solicitation and award a contract/SO that could include all sub-categories to meet the full requirement.

Suppliers are subject to the applicable Tier processes set out above. The Tier will be determined by the procurement strategy chosen by the IU: Sub-Category Procurement or All Inclusive.

Here is an example of the same requirement handled in two different ways:

1. Products from sub-category 1 with an Estimated Value of \$1000.00. (Category Procurement, Tier 1)
2. Products from sub-category 2 with an Estimated Value of \$200,000.00 (Category Procurement, Tier 2)

OR

1. Products from sub-category 1 and 2 with an Estimated Value of \$201,000.00 (All Inclusive Procurement, Tier 2)

6B.4 Bid Solicitation Process

6B.4.1 Tier 1 Bid Solicitation Process

The following applies to Tier 1 requirements:

The IU can request a verbal or written quote(s) or Standard Procurement Templates can be used. Examples of Simple, for low dollar value requirements templates will be available for identified users on the furniture website.

The IU can issue contracts using an Acquisition card. When using an acquisitions card, the user is required to reference the following "*the terms and conditions of SA E60PQ-120001/109PQ apply to and form part of this procurement.*"

Non-competitive process: When the IU chooses to request a quote/bid from a single Conforming Supplier.

Competitive process: When the IU chooses to request quotes/bids/ from multiple Conforming Suppliers.

6B.4.2 Tier 2 and 3 Bid Solicitation Process

The following applies to Tier 2 and 3 requirements:

Non-competitive process: Must be handled outside of the SA as a standalone procurement.

Competitive process: When the solicitation is posted on GETS and all Conforming Suppliers meeting the requirement have the opportunity to submit a bid/ offer. The IU must publish the Notice of Proposed Procurement (NPP) and the solicitation on GETS.

For Procurement Strategy for Indigenous Businesses (PSIB) procurements, Canadian Content only applies when at least two conforming suppliers offer “Canadian Content” as listed in their SA and when AB/AP is the contracting authority.

Tier 3 requirements can be procured up to the department’s delegation.

6B.5 Bid Solicitation Posting Period by Tier

The minimum bid periods per Tier when performing a solicitation are as follows:

- Tier 1 – 3 calendar days
- Tier 2 – 10 calendar days
- Tier 3 – 15 calendar days

Identified Users can use longer bid periods based on the scope and complexity of the requirement.

6B.6 Office Seating Solicitation Rules

6B.6.1 Non Supply Arrangement (NSA) Rule

Non Supply Arrangement (NSA): NSA products are products that do not form part of the supply arrangement. Examples of NSA are products that includes attributes, features or options that contradict the SA specifications or products that are not described in the specifications of the SA.

NSA products can be added to a requirement within the allowable percentage per sub-category (currently 30% of the quantity per sub-category or 30% of the full requirement when handled as an AIP).

The products must be added to the sub-category in which they are most closely related. Full specifications are required and should not refer to the SA specifications as they are not products on SA. The user may refer to the SA specifications to describe the products required as a reference. The specifications must be generic, and dimensions must include tolerances and ranges, when applicable.

C. RESULTING CONTRACT CLAUSES

Identify the applicable template(s) based on the nature of the requirement and the estimated value of individual bid solicitations that can be issued under the supply arrangement. For example, when the estimated value of the contracts to be awarded under the supply arrangement will not exceed \$25,000 (Applicable Taxes included) and the nature of the requirement is low complexity, only the Simple template would be used. The applicable general conditions will be based on the nature and complexity associated with the requirement described under article 6.1 of Part 6A. Identify any set of supplemental general conditions when applicable.

6C.1 General

The conditions of any contract awarded under the Supply Arrangement will be in accordance with the resulting contract clauses of the template used for the bid solicitation.

6C.1.2 Standard Procurement Templates:

- (a) **Simple** (for low dollar value requirements), general conditions [2029](#) will apply to the resulting contract;
- (b) **MC** (for medium complexity requirements), general conditions 2006 will apply to the resulting contract;
- (c) **RFSO** (for high complexity requirements), general conditions 2005 will apply to the resulting standing offer;

A copy of the standard procurement template(s) can be requested by suppliers from the Supply Arrangement Authority or the Contracting Authority, as applicable.

Note: References to the RFSO, MC and Simple templates are provided as examples only. The latest versions of the template and terms and conditions will be used at time of bid solicitation.

6C.1.3 SA Templates

PSPC will provide example templates for identified users that will be aligned with the Standard Procurement Templates. These examples will provide sample common clauses used in the furniture commodity as well as pricing table templates. These examples will be hosted on the furniture website.
